

Knox Church Health and Safety Statement

Knox Church believes that an effective Health and Safety management system is key to a successful organisation: ethically, morally, spiritually, legally and financially. Through our active commitment to legislation compliance and most importantly, ensuring our workers and Church are safe, we will continuously look for opportunities to improve our performance and systems whilst following our Church values.

We aim to actively promote improvement through ensuring our staff and Management are equally committed, involved and supporting of our Health and Safety practices.

To achieve this we will ensure all workers and visitors are:

- Working together: taking reasonably practicable steps to ensure that any significant risks or hazards to workers are minimized, and workers are protected, where elimination is impractical.
- Involved in identifying and controlling new and existing hazards and regularly monitoring these hazards within our facilities.
- Informed about accident and emergency procedures.
- Aware of their responsibilities to themselves, their fellow workers and the general public.
- Utilising the systems in place to record all incidents, near misses or injury.
- Promoting the provision of advice, information, education and training in relation to work health and safety.
